

Digi-Wave™

Digital Listening System

[portable, two-way digital wireless is hear]

The new Digi-Wave™ digital spread spectrum (DSS) wireless listening system is the first, true, two-way wireless listening system in the 2.4 GHz band. Slim, lightweight, and simple to set up and use. With the push of a button, users can access two-way communication for easy audience/group member participation.

- Portable DLT-100 transceivers for 1-way or 2-way operation
- DLR-50 receivers for digital, 1-way listening applications
- 15-ch simultaneous use available in 1-way operation
- 4-ch simultaneous use available in 2-way operation
- Patented frequency-hopping technology minimizes interference from other devices
- Global, turn-key solution: 2.4 GHz operation harmonized for use in most countries
