

FM Solutions for Large & Small Area Venues

Williams Sound has been providing solutions to help meet accessibility needs of facilities for more than 35 years. Our wireless FM listening technology includes both installed and portable systems for use in hearing assistance and/or simultaneous interpretation. Each system is designed by our own engineers, followed up by the production of high-quality products, quick delivery, easy maintenance and exceptional customer service. Each Williams Sound system meets Americans with Disabilities Act (ADA) requirements and is covered by an industry-leading, five-year warranty.

Applications

- Any auditorium with basic ADA compliance needs
- School assemblies that include parents and/or other visitors
- Productions, plays, concerts, performing arts centers
- Houses of Worship
- Student orientation/campus/corporate/manufacturing plant tours
- Sporting events in arenas, stadiums and gymnasiums
- Interpretation needs-ESL/corporate presentations
- Corporate conference areas

Installed Systems

Large venues needing up to 1,000 feet of coverage will require an installed base station transmitter and accompanying receivers. Williams Sound offers the following solutions for these coverage needs.

PPA® 377 PRO

Ideal for large venues where superior coverage is essential. Push-button menu controls make the system easy to set up and use. Professional sound features (including three pre-set capabilities) and an operating range of up to 1000 feet.

System includes:

- | | |
|--|-----------------------------|
| (1) PPA T35 Display Transmitter* | (1) WCA 013 Audio Cable |
| (4) PPA SELECT™ (PPA R37)
Receivers* with batteries | (1) ANT 005 Coaxial Antenna |
| (4) EAR 013 Earphones | (1) TFP 016 Power Supply |
| (1) IDP 008 ADA Wall Plaque | (1) RPK 005 Rack Panel Kit |

PPA® Value Pack System

For venues requiring a less sophisticated transmitter but the same coverage (up to 1,000 feet). Features the T27 transmitter with an LED display panel and push-button channel selection for easy operation. The PPA VP 37 has 17 available channels, and operates on 72-76 MHz.

System includes:

- | | |
|--|--------------------------|
| (1) PPA T27 Transmitter* | (1) IDP 008 Wall Plaque |
| (4) PPA SELECT™ (PPA R37)
Receivers* with batteries | (1) WCA 013 Audio Cable |
| (4) EAR 013 Earphones | (1) ANT 021 Antenna |
| | (1) TFP 036 Power Supply |

*Additional receivers and transmitters can be purchased separately.
